

BSc (Hons) Accounting & Finance

The department of accounting and finance at St Martin's Institute offers a brand new of degree researched and developed by the London School of Economics & Political Science (LSE). These degrees give you an understanding of accounting and finance, banking and finance that will be useful throughout your career. This means that we do not simply teach accounting or banking techniques and focus on computational skills with the aim of immediate application, but to enable our students to evaluate their usefulness in different contexts. We encourage you to adopt a critical and flexible viewpoint and to look at the subject from a variety of perspectives, including the international dimension.

Who is it for?

- If you wish to work in the areas of accounting, auditing, banking, investment, sales, business, economics, and management.
- If you are currently working would like to develop your professional skills and knowledge further.
- If you own a business and wish to progress yourself and your business to higher levels.

Features of the Degree

This degree provides a thorough grounding in accounting and finance within a strong social science framework and an international flavor, developed in consultation with academics and professionals throughout the world. The subject guides provided to support our lectures are written by internationally acknowledged leaders in both academic research and in professional accountancy and the financial markets.

ACCA: The Association of Chartered Certified Accountants (ACCA) recognizes that graduates of this programme who have passed combinations of units of this degree are eligible for exemption from the two levels of the ACCA leading to the ACCA qualification.
